

Shubhangi Jha

📍 Delhi, India 📞 9205525121 ✉ Shubhangi in LinkedIn 🐙 GitHub 🏆 LeetCode

Education

Indira Gandhi Delhi Technical University for Women, Delhi
B.Tech in CSE-AI

2024 – 2028
CGPA: 8.84/10

Experience

Summer Intern

AI Enabled Full Stack Development

IGDTUW, Delhi
June 2025 – July 2025

- Built a machine learning model for early detection of Parkinson's disease using the UCI voice dataset, achieving 87% accuracy with SVM.
- Performed feature engineering, EDA, model training, evaluation, and deployed a working demo using Gradio.
- Worked with acoustic biomarkers like jitter, shimmer, HNR, RPDE, DFA, PPE to extract voice-based disease patterns.

Mentee

Codess.Cafe

IGDTUW, Delhi
2024 – Present

- Mentee at Codess.Cafe, gaining valuable insights and practical experience in coding through collaborative learning and mentorship.

Projects

Monetra | [Live](#) | [GitHub](#)

November 2025

- Developed a full-stack Expense Tracker application with JWT-based authentication, enabling users to manage income and expenses with real-time financial insights and dashboard analytics.
- Designed RESTful APIs for income, expense, and dashboard modules with Excel export functionality; implemented interactive data visualizations (Bar, Pie, Line charts) and recent transaction tracking.
- **Tech Stack:** React.js, Tailwind CSS, Node.js, Express.js, MongoDB, JWT, Axios

Tic Tac Toe | [Live](#) | [GitHub](#)

October 2025

- Built a two-player Tic-Tac-Toe game using React with real-time board updates and state-driven UI.
- Implemented game-logic for win detection, draw handling, and an intuitive grid interface with responsive styling.
- Tools Used: React.js, Tailwind CSS

Habit Tracker | [Live](#) | [GitHub](#)

July 2025

- An interactive habit-tracking app that lets users create, edit, and delete habits with a responsive interface and persistent storage for saving progress.
- Tools Used: HTML, CSS, JS

Technical Skills

Languages: C++, Python, JavaScript, SQL

Full-Stack: React.js, Tailwind CSS, Node.js, Express.js, MongoDB, REST APIs, JWT

Core CS Subjects: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

Achievements

- Research paper accepted at ICOIICS 2025: "Voice-Based Detection of Parkinson's Disease Using Machine Learning Techniques."
- Solved 350+ coding problems across platforms, including 200+ on LeetCode with a max rating of 1520.
