

Letter of Acceptance

Paper ID: ICOIICS-0429

Title: A Comparative Study of Supervised Machine Learning Models for Stroke Risk Prediction

Dear Author:

It is with great pleasure that we extend our warmest congratulations to you on the acceptance of the paper at the 4th International Conference on Intelligent Computing, Information and Control Systems, scheduled to be held in Nepal College of Information Technology, Balkumari Rd, Lalitpur 44600, Nepal during November 19 - 21, 2025.

Your submission was subjected to a rigorous review process, and the result that your paper has been selected for inclusion in our conference program. We believe that your contribution will greatly enrich the discussions and knowledge exchange at our event.

Your participation will undoubtedly contribute to the success of the 4th International Conference on Intelligent Computing, Information and Control Systems.

Once again, congratulations on your acceptance, and we anticipate your valuable contribution to our conference.

Yours' Sincerely,

Conference Team ICOIICS - 2025

Technical comments

Review comments:

1. The methodology should be clearly presented, including detailed descriptions of the model design, data acquisition or selection, and experimental setup to ensure reproducibility. Include quantitative benchmarking and performance evaluation to compare the discussed techniques and other state-of-the-art methods.
2. The novelty, significance, and core contribution of the work should be highlighted clearly, explaining how it advances existing knowledge or technology.
3. Strengthen the discussion by providing deeper analytical insights, including result interpretation, validation, and potential implications or applications.
4. The limitations of prior research should be critically analyzed and presented as well-defined research gaps that justify the need for the current study.
5. Ensure that all figures, graphs, and tables are of high quality, consistently formatted, and clearly cited and discussed within the main text.
6. Expand the literature review to include recent and relevant publications from the last three to five years, emphasizing developments directly related to the topic.
7. Verify that all in-text citations correspond accurately to the reference list and adhere to the required citation style (e.g., IEEE, APA, or journal-specific).
8. Remove all headers, footers, and page numbers to comply with the formatting and submission guidelines.
9. All tables, figures, and data points included in the research paper must be comprehensively and accurately labeled to ensure clarity and precision in presentation. Author should remove informal phrases presented in the article content.
